Autism in Massachusetts

A BLUEPRINT FOR THE FUTURE

The Autism Commission
Barbara L’Italien, longtime Massachusetts legislator and Commission Chairperson, will present on the key findings and recommendations of The Autism Commission:

Autism in Massachusetts:
A Blueprint for the Future

Please join us for this informative presentation about the newly released Commission report. After nearly three years of investigation and effort from many advocates and leaders, this is an opportunity to learn firsthand about this critical initiative for the autism community.

About The Autism Commission
The Autism Commission was established by Legislative Resolve and approved by Governor Patrick on April 22, 2010. It was charged to make an investigation and study relative to individuals with autistic spectrum disorders, which shall include, but not be limited to Asperger’s syndrome, high functioning autism and pervasive development disorder and to investigate and study the range of services and supports necessary for individuals to achieve their full potential across their lifespan. The Commission consists of 31 members appointed by the Governor.
