

Research: A Guide for Self-Advocates with Disabilities

Brandeis University
The Heller School for Social
Policy and Management

June 2011

Jamie G. Swaine, Susan L. Parish, & Karen Luken

LURIE INSTITUTE FOR DISABILITY POLICY

What is research?

Research is when we learn about something we don't fully understand.

Should I join a research study?

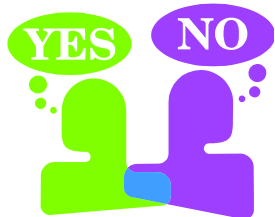

Sometimes it is fun to be in research projects and help scientists learn about what people with disabilities need.

Before joining a research study you should ask **LOTS** of questions. You can ask questions like these (and any other questions you want to ask):

- Will it hurt to be in the study?
- How much time will it take me?
- Will I get upset from being in the study?
- Will I be paid for my time?

Make sure you really understand what you will have to do in the study.

And remember....

You can always say **NO!** It's your right!

Jamie G. Swaine, MSW, School of Social Work, University of North Carolina at Chapel Hill;
Susan L. Parish, PhD, MSW, Lurie Institute for Disability Policy, Heller School for Social Policy and Management, Brandeis University; and *Karen Luken*, MS, North Carolina Office on Disability and Health, University of North Carolina at Chapel Hill. Support for this project was provided by the: National Institute on Disability and Rehabilitation Research Grant No. H133G090124.
